

CRYOVAC®

Brand Recyclable Coffee Pouch

Sustainability meets shelf appeal.
Engineered for freshness, recyclability,
and performance.

NEW

**MADE TO PROTECT
READY TO RECYCLE**

Coffee Packaging Redefined

OVERVIEW

CRYOVAC® Brand Recyclable Coffee Pouches are designed to protect aroma, preserve quality, and reduce environmental impact. Made from recyclable mono-materials and optimised for the demands of the coffee sector, this high-barrier solution supports both brand image and circular economy targets without compromising on function or style.

TYPICAL APPLICATIONS

Whole bean | Ground coffee |
Specialty roasts | Decaf blends |
Single origin and single-serve packs

BENEFITS

LDPE

Fully recyclable mono-material structure (mono-PE with EVOH or coating barrier)

Designed for recycling in accordance with OPRL, CEFLEX, and Cyclos guidelines

Excellent barrier properties to lock in aroma, flavour, and freshness

Compatible with degassing valves and resealable zippers

Available in sizes from 100g to 1kg

Designed for use in both automated lines and manual filling setups

Available in doypouch format

MATERIALS

Mono-PE film with EVOH or coating barrier layers

Heat sealable and compatible with high-speed filling lines

No aluminium foil for improved recyclability

PRINT & FINISHING

Digital Print: Short runs from 500 units – ideal for new blends, seasonal lines, and private label launches

Finishes: Gloss, Matt

BESPOKE FEATURES

Optimally positioned one-way degassing valve helps gasses escape from the pack while keeping the coffee fresh

Recyclable press-to-close zipper with built in easy open tear for consumer convenience and product freshness
