

COMPARISON GUIDE

CHEESE PACKAGING

PRESERVE FLAVOR, QUALITY,
AND PRODUCT INTEGRITY

CRYOVAC® cheese packaging solutions are tailored to the precise needs of cheesemakers, allowing you to protect the integrity of your products throughout production and distribution. Our materials are compatible with a wide range of equipment to help enhance operational efficiency and throughput. Most materials can be printed in up to 10 colors for enhanced merchandising.

FORMING WEBS

APPLICATIONS: Retail Blocks, Specialty Cuts, Deli Loaves, Slices, Cubes, Snack Cheeses, High-Moisture

Forming rollstock films create durable packages that maintain shape, seal integrity, and performance. Films come in a range of barrier options to fit your needs. Designed for vacuum and skin pack applications, these films deliver material efficiency, product protection, and consistent quality.

NON-FORMING WEBS

APPLICATIONS: Retail Blocks, Specialty Cuts, Deli Loaves, Shreds, Slices, Cubes, Snack Cheeses, High-Moisture

Non-forming rollstock lid films provide high-integrity seals with easy-peel and reseal convenience options and are fully compatible with forming webs. Laminated printed rollstock options offers superior print quality for enhanced branding.

VACUUM SKIN PACKAGING (VSP)

APPLICATIONS: Retail Blocks, Specialty Cuts, Slices, Snack Cheeses, High-Moisture

Darfresh® vacuum skin packaging film offers impressive optics and preserves the color, flavor, and integrity of cheese. It ensures a tight seal across on a diverse array of substrates, including CRYOVAC® brand Darfresh® on Board.

BARRIER SHRINK BAGS

APPLICATIONS: Retail Blocks, Specialty Cuts, Deli Loaves

The extensive range of sizes and seal shapes in CRYOVAC® barrier shrink bags help preserve the flavor of your cheeses while offering outstanding presentation, optics, shrink, and merchandising in the cheese case. Specialized gassing cheese shrink bags allow the release of CO₂ for aging, maturation, and storage.

COMPATIBLE CRYOVAC® EQUIPMENT: Automatic and Manual Bag Loaders; Rotary Vacuum Chambers; Shrink, Chill, and Dry Tunnels

GRIP & TEAR® EASY-OPEN SHRINK BAGS

APPLICATIONS: Retail Blocks, Specialty Cuts, Deli Loaves

Grip & Tear® easy-open shrink bags enhance convenience and safety in opening packages. These bags open without tools, with a simple pull on the tab. Options exist for small, consumer-friendly portions as well as large deli loaves. Plus, the bags can be custom printed for improved merchandising.

COMPATIBLE CRYOVAC® EQUIPMENT: Automatic and Manual Bag Loaders; Rotary Vacuum Chambers; Shrink, Chill, and Dry Tunnels

FLOW WRAP FILM

APPLICATIONS: Retail Blocks, Deli Loaves

This shrinkable film offers strong seals to create high-integrity packs with a glossy, high-quality finish. The quantity of film can be adjusted to the length of the product, helping reduce material use.

MULTI-SEAL[®] FLEXLOK[™] RESEALABLE LID FILM

APPLICATIONS: Slices, Cubes

Multi-Seal[®] FlexLOK[™] is a resealable lidding film that offers 360-degree label orientation with reliable easy-open and easy-close technology, allowing consumers to open and close the package multiple times without the need to repackage. The peel is a lidding film that integrates flawlessly on modified atmosphere packaging or vacuum equipment. The resealable label offers reliable easy-open and easy-close capabilities, with a 360-degree orientation that allows consumers to open and close the package multiple times without the need to repackage. The reseal lid film integrates flawlessly on modified atmosphere packaging or vacuum equipment.

GUSSETED CHEESE POUCH

APPLICATIONS: 40-Pound Blocks, Retail Blocks

Designed for blocks up to 40 pounds, these pouches offer low-temperature, airtight seals to protect cheese from moisture, oxygen, and contaminants, leading to extended shelf life and optimal freshness. They have exceptional durability for bulk-packaged products. Options are available to protect cheese during the aging process.

COMPATIBLE CRYOVAC[®] EQUIPMENT: Cheese Block Loader; Bag Re-Gusset Equipment; Block Turner; Automatic and Manual Bag Loaders; Rotary Vacuum Chambers
