

WHY CHOOSE Instapak[®] Quick?

SEALED AIR[®] Brand Instapak[®] Quick RT[®] Foam Packaging is an **on-demand protective packaging solution you can take and use anywhere.**

No equipment needed, after activation via pressing and taping the bag, the foam expands in seconds to form custom-fit protective foam cushions.

This polyurethane packaging foam is ideal for low-volume packaging operations.

COST SAVINGS

- **No equipment.** No dispensing system or warming unit required
- **Space-saving storage:** the cushions store flat to save space. Use only what you need, when you need
- **No return costs and time saving:** reduce transit damage, customer returns, and costly replacements

HIGH PRODUCT PROTECTION

- **Protects with precision:** creates bespoke foam that fits around your product of any shape, size or weight
- Several bag sizes and density foams for **durable cushioning and blocking and bracing protection**
- **Customer satisfaction:** the product arrives in a neat professional package
- Whether you're shipping delicate electronics or bulky components, Instapak® Quick RT® gives you peace of mind with every shipment

MATERIAL
FOR MAXIMUM
PROTECTION

EASY-TO-USE

- **No Setup,** no machine
- **Convenient:** completely mobile, so you can use it anywhere
- **Just press, pat, and pack** anytime, anywhere
- **Just fast:** the custom-fit foam protection expands up to **27x its original size in seconds**—directly from the bag

SUSTAINABLE

- The foam provides the **right amount of packaging material** to protect the product which optimises transportation with smaller cartons
- Instapak® foam expands on-demand and on-site **freeing up valuable warehouse space and reducing the number of delivery trucks** with associated costs and emissions
- **Less damage** means fewer products in landfills and a more sustainable supply chain process.
- Instapak® cushions **can be reused** as carton fillers or reshaped manually to fit the next product shipped
