

## COMPARISON GUIDE

# PREFORMED TRAYS

DESIGNED FOR EFFICIENCY,  
SHELF LIFE, AND STANDOUT  
PRESENTATION

With CRYOVAC® brand preformed trays, you can create all types of case-ready packaging to meet your business needs and the demands of today's consumer. These carriers are optimized for use with CRYOVAC® brand lid films, overwrap films, or our Darfresh® vacuum skin packaging films. Our trays are available in an assortment of sizes, colors, and tray configurations.

## MODIFIED ATMOSPHERE PACKAGING (MAP) TRAY

APPLICATIONS: Ground Meat, Whole Muscle

Made from a high-barrier polypropylene (PP) material that can help extend shelf life, while increasing production efficiencies.

COMPATIBLE MATERIALS: Plain or Printed Lid Films

## VACUUM SKIN PACKAGING (VSP) TRAY

APPLICATIONS: Ground Meat, Whole Muscle

Made from a high-barrier easy-open polypropylene (PP) material that can help extend shelf life and maintain flavor. When paired with one of our vacuum skin films, the result is a hermetically sealed case-ready solution that is visually appealing to consumers.

COMPATIBLE MATERIALS: Darfresh® VSP Films

## HYDROLOQ MAP TRAY

APPLICATIONS: Ground Meat, Whole Muscle

Made from a high-barrier polypropylene (PP) material that can help extend shelf life, while increasing production efficiencies. The CRYOVAC® brand HydroLOQ MAP tray features a patented design that helps lock in purge and eliminates the need for a soaker pad.

COMPATIBLE MATERIALS: Plain or Printed Lid Films

## PET OVERWRAP TRAY

APPLICATIONS: Ground Meat, Whole Muscle

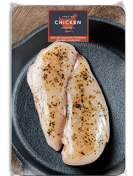

Preformed overwrap trays made from polyester (PET) material offer rolled rim technology that enables you to produce a highly attractive case-ready package.

COMPATIBLE MATERIALS: SES or BDF Overwrap Films

## DARFRESH® ON BOARD VACUUM SKIN PACKAGING

APPLICATIONS: Whole Muscle

Combines a clear, highly formable VSP top film with a cardboard bottom carrier that lets you leverage 2-sided printing capabilities. As a result, you're able to enhance your brand presence and differentiate your product on the shelf.

COMPATIBLE MATERIALS: Darfresh® VSP Films

## KEY FEATURES LEGEND

### SUSTAINABILITY

- 1 Made from renewable materials
- 2 Curbside Recyclable<sup>1</sup>
- 3 Can be made with recyclable content
- 4 No soaker pad needed

### CONSUMER CONVENIENCE

- 1 Freezer-ready
- 2 Leakproof<sup>2</sup>
- 3 Leak-resistant
- 4 Easy-open
- 5 Full product visibility<sup>3</sup>

### BRAND BUILDING

- 1 Printable carrier
- 2 Compatible with printable film
- 3 Sustainable for vertical merchandising
