Bubble Bag

BENEFITS

Designed to run on the BUBBLE WRAP® brand Flex packaging system, the BUBBLE WRAP® brand inflatable pouch is an on-demand bubble bag solution made of high performing cushioning and surface protection films.

DECREASES PACK TIMES

Intuitive and ready-to-use upon inflation, it improves the packaging operation by reducing the steps in the packaging process.

ENABLES CONSISTENT PACKS FROM OPERATOR TO OPERATOR

The pouch takes the guesswork out of the packaging process, eliminating wasteful product over-wrapping, enabling consistent protection from pack to pack.

OFFERS STORAGE SPACE SAVINGS

It ships flat, stores flat and inflates on-demand requiring significantly less storage space, shipping and handling than traditional bulky materials.

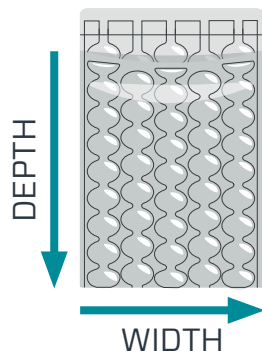

SPECIFICATIONS

Bubble Height:
13mm, 19mm

Pouch Depth:
150mm and 300mm

Pouch Width:
Several sizes available*

TYPICAL APPLICATIONS

The BUBBLE WRAP® brand inflatable pouch supports a wide range of packaging applications, for health & beauty, automotive, medical equipment, home goods, warranty & repair, and much more.

E-Commerce Packaging

Industrial Component

Omni-Channel Stores

Aerospace

General Manufacturing

Fulfillment Centre

3PL

SUSTAINABILITY

OPTIMISES MATERIAL USAGE

Made with our patented Barrier Bubble technology, the inflatable pouch puts an end to unnecessary overwrapping of your products, by reducing the amount of packaging material required to provide the correct cushioning protection. The Barrier Bubble™ retains the air during the shipping cycle and warehousing. It provides high cushioning performance, reducing damage.

The film is compatible with mechanical recycling streams of LDPE and recyclable in many locations.

Degree of recyclability will vary depending on scope and availability of flexible film collection, sortation and recycling programs.

IMPROVES TRANSPORTATION EFFICIENCY

The pouch enables customers to optimise the box size, reducing freight costs by eliminating excessive wrapping.
