Liquibox[®] Universal Self-Sealing Cap

Elevate your guests' experience with the new hygienic closed-loop milk dispensing fitment for automated coffee machines and milk dispensers.

- Suitable for fresh, ESL, hot fill and aseptic processes
- Compatible with 2-20L flexible bags
- Runs on existing bag-in-box equipment
- Compatible with bag-in-box and bag-in-tray systems

Universal

Backwards compatible
with all dairy dispenser
connectors

Recycle-Ready

Designed for recycling
in existing PE streams*

Self-Sealing

Prevents leaks
and maintains
product integrity

Streamlined

Facilitates quick
changeovers as a
plug-and-play system

Applications: milk dispensers and frothers for bean-to-cup coffee machines; smoothie and frappe dispensers; soft serve ice cream dispensers.

*Degree of recyclability of the final package depends on the specific product configuration or components intended for recycling and the scope and availability of appropriate local recycling facilities. Certified by Cyclos certificate no. 2499-2024-004113.

Protect Your Customers' Experience and Meet Sustainability Goals

Transition to a closed-loop system with the Liquibox Universal Self-Sealing Cap and experience the benefits:

- **Prevent Bacterial Growth** - No risk of inadequate cleaning of reusable milk containers
- **Minimize Food and Packaging Waste** - Extends milk's secondary shelf-life and optimizes product-to-package ratio
- **Save Time and Money** - Reduces the need for frequent milk refills, cleaning and maintenance

**70% less
CO₂ emissions**

Milk in aseptic 8L bag-in-box
vs. 1L milk carton

**45% less
CO₂ emissions**

Chilled milk in 8L bag-in-box
vs. 4 pint (2.27L) HDPE bottle
